Histon & Impington Recreation Ground,
New Road,
Impington,
Cambridge CB24 9LU

14th October 2008

Dear Neighbour,

Premier Foods regret the distress caused to all of you, our neighbours over the last few months due to odours coming from our effluent treatment plant. We would like to apologise for this and also for the time taken to identify the route cause of the problem and the solution to it.

The odours are not caused by the new anaerobic plant but are coming from one of our original storage tanks which hasn't been a problem before, but whose use has changed since the new plant was installed.

The solution is to put a roof onto this tank, of the same design as the other storage tank which has an existing roof. A planning application is required for this roof and this has been submitted. The roof is now being manufactured and we expect it to be installed at the start of December 2008 (subject to planning approval). You can see what the proposed roof would look like by looking at the existing photo and proposed drawing on the reverse of this letter.

If you would like to visit site in order to discuss this matter or any other concerns that you may have then please contact site on 01223 233333 at any time, and leave your name and contact telephone number. One of the management team will then contact you to arrange a convenient time for a meeting.

Yours Sincerely
For Premier Foods

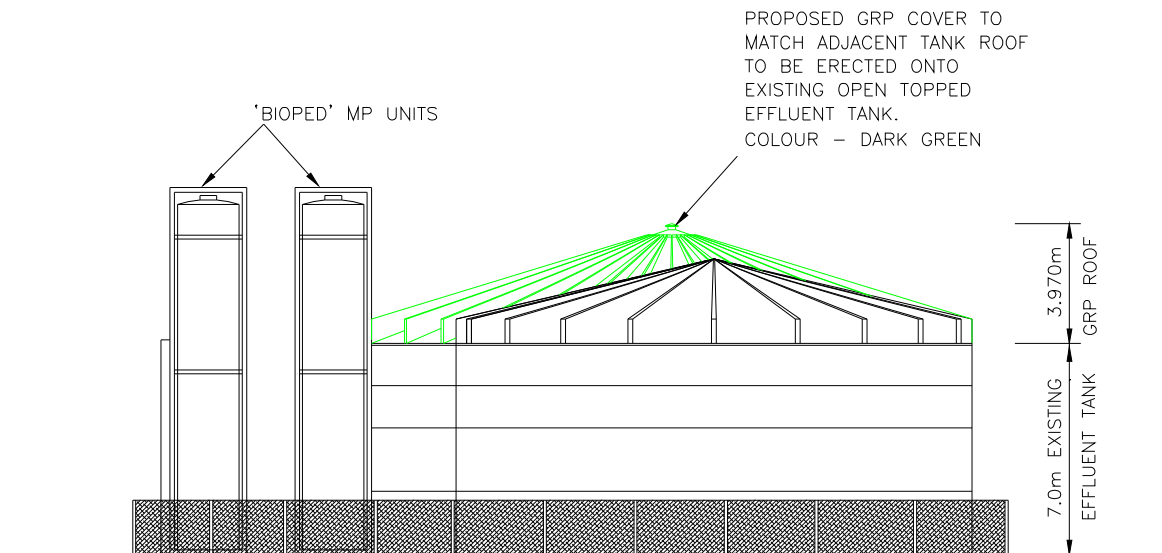

Ray Vidler
General Factory Manager
